

## **Director of Psychological Health (DPH) (Clinical Counselor)**

Serco is recruiting to fill the Director of Psychological Health (DPH) position to support the Wyoming Army National Guard (NG) Servicemembers and their families. This position will be located in Cheyenne, WY. The NG DPH program mission is to increase individual and unit readiness and well being through the promotion of psychological health and resilience. The State DPH will ensure strategic support servicers to leadership, the units and local community, and provide direct services to Servicemembers and their families.

The DPH provides Strategic Services through consultation to State NG leadership on psychological health issues and integration of Military Service and DOD-wide psychological health initiatives and population-health monitoring. Through Community Capacity Building, the DPH will assist in development of a strategic plan for delivery of comprehensive services to support psychological health, promote the availability of and access to a continuum of care to Servicemembers. The DPH will ensure clinical mental health services are provided at the installation and community level and all services are integrated and coordinated. Through direct client services, the DPH will ensure coordination and access for clinical, counseling, and other services which promote Servicemember and family psychological health and resiliency.

### **Required Skills and Experience**

Demonstrated understanding and skill in primary, secondary, and tertiary psychological health interventions.

Demonstrated ability to utilize a broad range of educational and promotional methods to create effective psychological health educational and promotional events and strategies.

Prior partnering with Military Service Government personnel and programs highly preferred.

Proven public speaking ability and experience which resulted in effective presentations to a variety of groups.

Excellent verbal, written and presentation communication skills. Able to work well with individuals in a wide range of ranks and positions in a military setting.

Attention to detail while working in a fast paced environment. Ability to travel within a state or territory as well as nationally as highly visible, well-identified representatives of this program.

Masters and/or Doctorate degree in a clinical or administrative mental health field from an accredited college or university recognized by the corresponding professional association(s).

Current state license or state certification to practice at the independent level as a mental health practitioner (e.g. social worker, clinical psychologist, marriage and family counselor, and professional counselor) in WI.

Demonstrated capability to complete accurate bio-psycho-social assessments including substance abuse assessments and ability to participate in NG sponsored Traumatic Brain Injury and Post Traumatic Stress Disorder training. Demonstrated skill in performing phone counseling

Minimum of five years of clinical or administration mental health care experience after receiving the qualifying graduate degree for this position.
